

LAKE COUNTY PROPERTY
APPRAISER TAX ROLL and GIS
MAP DATA PRICE

Contact: Rob Brown at rob.brown@lcpafl.org with questions on tax roll/appraisal data

The Lake County Property Appraiser (LCPA) no longer provides custom data requests. LCPA's tax roll data is offered for free on our FTP site. The data is provided in both csv and Excel formats. Data is updated once a month at the beginning of the month. The following files are provided:

- Area – Contains building sub areas and their square footages including, effective, gross, and heated area for each building on a parcel.
- Bldg – Contains various building information on each building on a parcel. (Ex. Residential/commercial, exterior wall types, AYB/EYB, values)
- Exemptions – Contains exemption number, and description for each parcel with an exemption.
- Land – Contains land line information for each parcel.
- Legal with Living – Contains legal description and total living area for the building.
- NALExtractPublic – Contains ownership information, land use codes, values, and exemption information among other data.
- Parcel Values – Contains land, building, and xfob values.
- Permits – Contains all LCPA's permit information. This is not the official permit information. You would have to get that data from the permitting department.
- Sales – Contains all sales data (all years).
- Subdivision Info – Contains subdivision information.
- Xfob – Contains any miscellaneous features on a parcel. (ex. Pool, utility bldg, and detached garage).

GIS Map Data, and Aerial Imagery:

[Geodatabases and Shapefile downloads available for free from the Lake County Geo Hub](#)

[Half Section Tax Maps in PDF format are available for free at www.lakecopropappr.com/tax-map.aspx](http://www.lakecopropappr.com/tax-map.aspx)

We are unable to produce large scale property tax maps, or hardcopy maps. PDF's of maps can be provided, that you can take to a printer or office supply store to have printed for you. We may be able to accommodate certain custom GIS data requests depending on the time of year, workload, and project lead time. Contact Joe Ward at joe.ward@lcpafl.org or 352-253-2174 to discuss the details of your request and whether it can be accommodated. Cost dependent upon labor, materials, and processing time. Custom map data will be provided in a file format for download via the above listed FTP site.

2020 Aerial Imagery:

County-wide 2020 Aerial Imagery is available on our FTP site for free in the MrSid format.
